## Goal

As a Graphic Designer, my goal is to find a career that is not just a job but is a calling. I hope to one day find a career that will enable me to use both of my degrees to the fullest. My passion has always been page layout so I would love to have the opportunity to do magazine layout once again someday.

## Skills

I am proficient in the use of Adobe Creative Suite, specifically Illustrator, Photoshop and InDesign, capable of using both Mac and PC platforms. I am able to design multicolor and single-color layouts. I am able to prepare artwork for printing in spot colors or four-color process, both as a screen printed job, multi-page documents or direct mail.

## Education

Liberty University	BS Degree/Religion	2015
Art Institute of Charlotte	AAS Degree/Graphic Design	2003
